**UNIVERSITY OF LLEIDA**  
**ACADEMIC REGULATIONS FOR OFFICIAL UNIVERSITY MASTER'S**  
**DEGREE STUDIES**  
**2016/2017 ACADEMIC YEAR**

**TITLE 1**  
**PRE-REGISTRATION**

**Article 1. Scope of application**

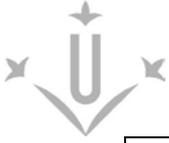

These regulations are applicable to official university studies leading to official university master's degrees.

Inter-university master's degrees shall be governed by the regulations of the coordinating university and by the respective agreement.

**Article 2. Master's degree admission and pre-registration**

**2.1 Admission**

<a href="#">Entry requirements for official university master's degrees in accordance with Royal Decree 1393/2007</a>	
1) Spanish official university qualification. (long degrees, engineering degrees, architecture degrees, short degrees, technical architecture and technical engineering qualifications and bachelor's degrees)	
2) Homologated foreign university qualification.	- The Ministry is responsible for administration.

<p>3) Non-homologated qualification with an educational level equivalent to a Spanish bachelor's degree, provided that the qualification issued by the foreign country enables entry to master's degree studies.</p>	<ul style="list-style-type: none"><li>- The person concerned must submit a document issued by the university awarding the qualification or by the competent authority of the country attesting to the fact that this qualification enables entry to postgraduate studies in the issuing country.</li> <li>- The University of Lleida is responsible for administration. The master's degree coordinator and the Official Postgraduate Programme Studies Committee of the centre must check these requirements before admitting students holding non-homologated qualifications.</li></ul> <p>Access by this means will not imply, in any case, the homologation of the previous qualification held by the person concerned, nor its official recognition unless to pursue the master as, if necessary, the homologation of the access qualification to the master can be required when exercising this profession.</p>
--	--

## 2.2 Pre-registration

### 2.2.1 Submission of applications

Pre-registration must formalised directly at the University of Lleida via its website. Students must fill in the application for pre-registration and pay the amount as set out in the decree on public prices, in accordance with the instructions given on the application form. Students must then send a signed hardcopy version of the application form to the secretariat of the respective centre no later than 10 days after pre-registering online, attaching the documentation corresponding to their entry route. Once the secretariat of the centre has received the application with the documentation and the indicated amount has been paid, the pre-registration shall be considered effective and it shall be studied. Under no circumstances shall the amount paid be refunded.

In the application for pre-registration, students must state whether they want to register

full-time or part-time.

Under exceptional circumstances, and provided that the supply of places is greater than demand, the Official Postgraduate Programme Studies Committee of the centre may conditionally accept students who are not in possession of all the required documentation, whose documentation is incomplete or who do not meet the entry requirements although they are expected to do so by the deadline for registration formalisation.

### **2.2.2 Deadlines**

The pre-registration deadlines for university master's degrees can be found on the notice boards of the centre, of the Academic Management Service and on the website of the University.

### **2.2.3 Selection criteria**

The master's degree Studies Committee shall establish the selection criteria that it considers appropriate for subsequent monitoring of the studies programme and shall ensure that they are complied with.

### **2.2.4 Documents for submission to pre-register**

- Original and copy or authenticated copy of DNI for Spanish students, of documentary proof of nationality and identity for students from EU Member States, or of passport for students from other countries.
- Application for pre-registration signed by the person concerned (printed from the website).
- Authenticated copy of the official university qualification certificate enabling entry to the master's degree. If applying via entry route 3 (non-homologated qualification with an educational level equivalent to a bachelor's degree), students must bear in mind that, at the time of registering, they must submit a document issued by the university awarding the qualification or by the competent authority of the country attesting to the fact that this qualification enables entry to postgraduate studies.
- The official academic transcript in which the grades obtained are specified and, in the event of transcripts issued abroad, the numeric scale of these grades and the credit hours

must be given. If students took their studies at the University of Lleida, they will not need to submit this document because the secretariat of the centre will attach the authenticated copy of the respective transcript to the application.

- Any documents specific to the master's degree, if mentioned in the master's degree information.
- New students registering using the self-registration system must submit or send by post the documents indicated in Article 3.2 of these regulations to the secretariat of the centre before self-registering.

If students wish to apply for credit recognition, they must state that in the respective section on the application for pre-registration and, in addition to the aforementioned documentation, they must submit:

- The curriculum or table of subjects issued or published by the respective centre.
- Documentation accrediting the competencies attained, the educational content taken or the stamped programme of passed subjects.

### **2.2.5. Requirements for documents issued abroad**

Documents issued abroad must be official, original and issued by the competent authorities, and they must be legalised diplomatically. This procedure must be carried out at each of the following organisations and in the indicated order:

1. Ministry of Education of the country of origin for qualifications and study certificates, and the respective Ministry for birth and nationality certificates.
2. Ministry of Foreign Affairs of the country issuing the documents.
3. Diplomatic or consular representation of Spain in the document-issuing country.

All documents issued by the diplomatic authorities or consular services of another country in Spain must be legalised by the Spanish Ministry of Foreign Affairs.

For the legalisation of documents issued by countries that are signatories to the Hague Convention, of 5 October, the previously established requirements are substituted by the apostille affixed to the document by the competent authority of the State that issued the document.

It is not required to legalise documentation issued by EU Member States, provided there are no doubts as to their authenticity and legitimacy, or to their official nature.

The aforementioned documents must be accompanied by an official translation into Spanish, if they are written in another language. This translation can be rendered:

- By any diplomatic or consular representation of Spain abroad.
- By the diplomatic or consular representation in Spain of the country of which the applicant is a subject or, if applicable, of the document-issuing country.
- By sworn translators duly authorised or registered in Spain.

As a general rule, it is only necessary to provide an official translation of the subject programme in cases where it cannot be assessed adequately without one.

If the original document is written in a non-Latin alphabet, it is recommended that the translation should include the name of the qualification in the original language but transcribed into the Latin alphabet, rather than a translation of that name.

Original documents may be submitted together with a photocopy, and they shall be returned to the people concerned after authentication.

If the photocopies have been compared and legalised by the diplomatic or consular representation of Spain in the document-issuing country or before a notary, it is not necessary to submit the original at the same time.

### **2.2.6 Resolution**

Resolutions are made by the body responsible for the Official Postgraduate Programme.

The coordinator or the responsible body signs the resolution in accordance with the established model. The resolution must state one of the following:

- student admitted
- student conditionally admitted\*

- student not admitted\*

- student on waiting list

(\* the reasons must be given)

The responsible body shall publish the signed resolution and post it on the notice board of the centre that does the registration and on the master's degree web page. The publication of the resolution indicates the DNI of the student (or the passport number of a foreign student), the reasons for denying admission or offering conditional admission, and the appeals that the persons concerned may lodge against the resolution.

If they disagree with the resolution, the persons concerned may submit an appeal to the Official Postgraduate Programme Studies Committee, which is the last administrative channel for appeals.

### **2.2.7 Place reservation**

Students may apply to reserve a place on exceptional grounds, which must be justified by the established deadline for registration.

The master's degree coordinator shall resolve the applications.

Reserved places are not subtracted from the supply of places for the following academic year.

## **TITLE 2**

### **REGISTRATION**

#### **Article 3. Registration**

##### **3.1 Submission of applications**

Every student may use the self-registration system. The formalisation of a registration, either in person or using the self-registration system, is a request. Paying for it and having it admitted by the administrative services of this University does not imply that the content of it is compliant.

The registration does not become effective if any of the data provided by the student are false or if the registration fee is not paid by the established deadline.

Students shall only receive training and teaching for the subjects they have registered to take.

For any information related to registration, students should contact the secretariat of the centre.

### **3.2 Documentation for submission to formalise the registration**

A) All students will have already submitted some of the documentation by the pre-registration deadline, but they must additionally submit:

- Duly completed registration request form (if students register in person).
- Two passport-size photographs with the applicant's name written in the back.
- Students applying for an exemption, discount or waiver of fees must submit the documentation accrediting their entitlement, as set out in the regulations governing it, by the registration deadline.
- Foreign students aged 28 and over must submit the original and a copy of health and accident insurance that is valid in Spain. This document is not necessary in the case of online masters which do not require the physical presence in the centre.

B) In addition to the documentation indicated in the previous section, and if not already submitted at the pre-registration stage, students must submit the following documents depending on their entry route:

Route 1: 1) Spanish official university qualification

- Authenticated copy of the official university qualification certificate enabling entry, or provisional certificate.

Route 2: 2) Homologated foreign university qualification

- Authenticated copy of the homologation document.

Route 3: Non-homologated qualification with an educational level equivalent to a bachelor's degree

- Authenticated copy of the qualification certificate with which entry is requested.
- Document issued by the university awarding the qualification or by the competent authority of the country attesting to the fact that this qualification enables entry to master's degree studies.
- Receipt for the payments of the fee set out in the decree on public prices.

Documents issued abroad must meet the requirements set out in Article 2.2.5 of these regulations.

New students registering using the self-registration system must submit or send by post all the documentation to the secretariat of the centre before self-registering.

### **3.3 Registration deadlines**

The student registration calendar is published and posted on the notice boards of each centre, of the Academic Management Service and on the website of the University.

### **3.4 Registration limits**

The master's degree Study Committee shall establish the curricular itinerary that each student shall follow: number of credits, subjects and activities that he or she must take.

Full-time students must register for a minimum of 60 credits per academic year. Students who register for fewer than 60 credits (the minimum number of credits that students must register for is 20) are considered part-time. Recognised credits shall not count for these purposes. These requirements are not applicable when students have fewer credits remaining to complete the master's degree.

It is recommended that full-time students should register for a maximum of 60 credits per academic year.

If a master's degree curriculum allows students to take optional subjects by registering for subjects from other master's degrees, with the sole aim of balancing the overall

calculation of optional credits, students may register for a maximum of 6 optional credits over the total number of optional credits established in their curriculum.

The Studies Commission of the respective master's degree shall resolve any exceptional situations that may arise concerning the registration limits set out in this section.

### **3.5 Second specialisation**

The second specialisation has to be done before completing the master's degree and requires authorisation from the Director of Studies of the centre.

### **3.6 Academic achievement**

Students must pass one third of the credits registered in one academic year. Students who do not pass this minimum fraction of credits must obtain a favourable report from the master's degree Committee to register again.

## **TITLE 3**

### **ECONOMIC REGULATIONS**

#### **Article 4. Exemptions and discounts**

##### **4.1 Free registration**

Students in one of the following situations are entitled to exemption from fees and public prices:

##### **4.1.1 Special large family**

Original and photocopy of the large family document or certificate (for students registering for the first time or who have already registered but have renewed the large family document).

The exemption only applies to subjects and the transcript management fee; students must therefore pay, in full, the support fee for learning and to the University of Lleida, the compulsory insurance and contracted services.

Students must provide proof, by the registration deadline, by submitting an up-to-date large family document or certificate. Students must meet this condition at the start of the academic year.

Likewise, in accordance with Article 8.3 of Royal Decree 1621/2005, of 30 December (Spain's Official State Gazette of 18 January 2006), people having the right to benefit from the document, which is being processed, are entitled to exemption by submitting the receipt of the application for issuance or renewal, accompanied by the affidavit of the category requested. Students must submit proof of the document before 31 December, otherwise the benefits granted will be cancelled and students will have to pay the respective amount. If the document issued is for a lower category than the one stated, students must pay the difference.

#### **4.1.2 Grantholder students**

Students receiving a general or mobility grant convened by the Ministry are not obliged to pay for the contracted academic services.

This payment exemption is also applied to students pending the resolution on the awarding of a grant at the time of registration provided that they were grantholders in the previous year or submit proof provided by AGAUR and they meet the academic requirements as set out in the respective announcement.

If a grant is not awarded, students must pay the respective registration amount. If this payment is not made, the registration for all subjects shall automatically be cancelled.

The submission or lodging of any kind of appeal relating to the refusal to award a grant shall not stop or suspend the students' obligation to make the payment, since it is considered that they do not meet the requirements of free registration.

Discounts only apply to subjects; students must therefore pay, in full, the transcript management fee, the support fee for learning and to the University of Lleida, the

compulsory insurance and contracted services.

#### **4.1.3 Students with a minimum degree of disability of 33%**

Students with a minimum degree of disability of 33% are entitled to exemption from all public prices as set out in decree on public prices published by the Government of Catalonia.

This condition is accredited by submitting any of the documents provided for by the regulations in force.

Students must pay the support fee for learning and to the University of Lleida, the compulsory insurance and contracted services.

#### **4.1.4 Students who are the victims of terrorist acts**

People who have been victims of terrorist attacks, as well as their spouses and children, are entitled to exemption from all public prices as set out in the decree on public prices published by the Government of Catalonia.

This condition is accredited by submitting the respective administrative resolution. Students must attach the family book in the case of spouses and children.

Students must pay the support fee for learning and to the University of Lleida, the compulsory insurance and contracted services.

#### **4.1.5 Students who are the victims of gender-based violence**

Victims of gender-based violence, as well as their dependent children, are entitled to exemption from all public prices as set out in the decree on public prices published by the Government of Catalonia.

This condition is accredited by submitting any of the documents provided for by the regulations in force, as well as the family book in the case of dependent children.

Students must pay the support fee for learning and to the University of Lleida, the

compulsory insurance and contracted services.

## **4.2 Discounted registration**

Students in one of the following situations are entitled to discounts:

### **4.2.1 General large family**

- Original and photocopy of the large family document or certificate (for students registering for the first time or who have already registered but have renewed the large family document). If the number of siblings or children does not appear in it, students must provide proof of that by means of a certificate from the respective department.

The 50% discount applies to subjects and the transcript management fee. Students must pay, in full, the support fee for learning and to the University of Lleida, the compulsory insurance and contracted services.

Students must provide proof by the registration deadline. Students must meet this condition at the start of the academic year.

Likewise, in accordance with Article 8.3 of Royal Decree 1621/2005, of 30 December (Spain's Official State Gazette of 18 January 2006), people having the right to benefit from the document, which is being processed, are entitled to discounts by submitting the receipt of the application for issuance or renewal, accompanied by the affidavit of the category requested. Students must submit proof of the document before 31 December, otherwise the benefits granted will be cancelled and students will have to pay the respective amount. If the document issued is for a lower category than the one stated, students must pay the difference.

### **4.2.2 Distinctions**

Students who obtained credits with distinctions at the University of Lleida in the immediately preceding academic year are entitled to exemption from payment of the registration fee of the same degree for a number of credits equivalent to those that they have obtained with this academic grade.

If the credits with distinctions are the last ones of the bachelor's degree or of an old curriculum degree, the exemption shall apply to the master's degree in accordance with the following equivalence: if the subject type is annual, 2 credits shall be discounted from the master's degree, and if the subject type is semestral, 1 credit shall be discounted.

#### **4.2.3 Financial assistance from firms or institutions in accordance with Agreement 200/2006 Board of Governors**

Discounts only apply to subjects; students must therefore pay, in full, the transcript management fee, the insurance and contracted services.

A student's condition as the beneficiary of such financial assistance must be accredited by a letter signed by the master's coordinator.

The aforementioned letter must indicate the percentage of financial assistance awarded, which shall be deducted from the total fee for the registered credits.

### **Article 5. Registration fee payment**

#### **5.1 Means of payment**

The University shall collect the registration fee by charging the account of the bank chosen by students. When registering, students must select one of the following means of payment.

##### **5.1.1 Single direct debit payment**

The University shall charge the amount from the 10<sup>th</sup> day after registration.

##### **5.1.2 Direct debit payment in three instalments**

The registration fee shall be charged in three instalments:

As a general rule, the instalments shall be as follows:

- a) The first instalment shall be charged from the 10<sup>th</sup> day after registration. As a guide for registrations in July, the charge shall be made between 8 and 16 August 2016,

and for registrations in September, the charge shall be made between 20 and 30 September 2016.

- b) The second instalment shall be charged on 16 November 2016.
- b) The third instalment shall be charged on 30 December 2016.

To arrange direct debit payments, students must give the bank account details in the respective section of the registration request form (registration in person) or during the self-registration process. If registration applicants are not the holders of the account indicated on the application form, they must have authorisation from the account holder.

The receipt of registration, whether done in person or using the self-registration system, shall serve for notification purposes.

Registration fees that, for whatever reason, have to be paid outside payment in instalments and after the third instalment set out in this Article, must be paid in cash at any of the banks indicated on the invoice.

### **5.1.3 Loan by the Government of Catalonia**

Information is available to students at <http://www.gencat.cat/agaur>.

### **5.2 Procedure and effects of non-payment of the registration fee**

If the University cannot collect the full or partial amount of the registration fee through the account number provided by the student, it shall reissue the order a second time for cash payment, adding to the total or partial amount of the registration fees an amount to cover the costs of non-payment incurred, as established by the budget of the University of Lleida. The University shall notify the student of full or partial non-payment of the registration fee and the amount of expenses incurred due to unpaid orders. Students must pay the outstanding amount before the due date, which shall be sent as an attachment to the notification.

*(Si la Universitat no pot cobrar l'import total o parcial de la matrícula a través del número de compte indicat per l'estudiant, tornarà a enviar el rebut una segona vegada*

*per tal que el pagui en efectiu, afegint a l'import total o parcial de la matrícula la quantitat de recàrrec per impagament que estableix el pressupost de la UdL. La Universitat notificarà a l'estudiant l'import pendent, que inclourà el recàrrec per impagament. L'estudiant haurà d'abonar l'import pendent abans de la data de venciment del rebut que se li enviarà adjunt a la notificació.)*

Notification may be made electronically if the person concerned has indicated that this as his or her medium of preference or has consented to its use, as well as when electronic notification is imposed in accordance with the regulations. Electronic notification shall be made, when applicable, using the online office of the University of Lleida.

In the event that upon this second attempt the University were unable to collect the outstanding amount, the student's registration shall automatically be cancelled without further notice in accordance with the decree in force that sets out the prices of the provision of academic services at public universities, and cancellation shall be published by resolution of the manager of the University of Lleida on the notice board of the centre and of the Academic Management Service.

As a consequence of the cancellation, among other effects, the student shall be removed from all subjects applied for and shall not be entitled to sit examinations or use the services of this University.

## **Article 6. Amendments to registration**

### **6.1 Amendments to registration with and without charge**

Students may amend their registrations free of charge at the secretariat of the centre within 3 days of the day of registration.

After the deadlines shown in previous paragraph and in this Article 6, students must apply to the respective body for any partial amendment or addition to the registration, as described below, and must pay any extra charge for this, as set out in the decree on public prices published by the Government of Catalonia.

### **6.1.1 Amendment to personal data**

Students must fill in form MT-2 and submit it to the secretariat of the centre as soon as they realise the mistake.

### **6.1.2 Amendment to the application for registration**

Students must fill in form MT-3 and submit it to the secretariat of the centre.

Any amounts corresponding to the support fee for learning and to the University of Lleida, the compulsory insurance, contracted services and voluntary contributions shall not be refunded.

The master's degree coordinator shall resolve any exceptional situations that may arise from registration amendments. An appeal may be lodged against his or her decision before the rector within one month of the day following notification.

### **6.1.3 Cancellation of registration**

For this purpose, students must use application for registration cancellation form MT-1.

Students must submit the form to the secretariat of the respective centre. The deadline is 15 December 2016.

The only circumstance giving rise to a refund of the amount paid for the credits registered in master's degree studies is serious illness of the students substantiated by an official medical certificate.

The manager shall resolve the cancellation of registration. An appeal may be lodged against his or her decision before the rector within one month of the day following notification.

Cancellation of registration involves the loss of the place obtained when pre-registering in the case of first year students, and also involves the return to the person concerned of the original documents provided at the time of registration.

The secretariat shall keep a copy of these documents and shall require the person concerned to sign the respective form as proof of their return to the person concerned.

Any amounts corresponding to the support fee for learning and to the University of Lleida, the transcript management fee, the compulsory insurance, contracted services and voluntary contributions shall not be refunded.

#### **6.1.4 Withdrawal from subjects**

Students must fill in form MT-4 and submit it to the secretariat of the centre.

Deadlines to apply for withdrawal:

- First semester subjects: 4 November 2016
- Annual subjects: 12 December 2016
- Second semester subjects: 10 March 2017

The coordinator shall resolve the applications. An appeal may be lodged against his or her decision before the rector within one month of the day following notification.

In this case, withdrawal from subjects shall not entail a refund of the amount paid, but it shall not be counted for the purposes of a surcharge for following years.

#### **6.1.5 Addition to registration**

Students must fill in form MT-5.

Payment shall be made by means of a single direct debit order.

If payment is not made for this addition, none of the registration shall become effective.

The coordinator shall resolve the applications. An appeal may be lodged against his or her decision before the rector within one month of the day following notification.

## **6.2 Exceptions**

The surcharge for partial additions and amendments to the registration as set out in the decree on public prices shall not apply to students who amend their registration after the deadlines indicated in this Article 6 and are in any of the following situations:

- Amendment of personal information and bank details
- Grant
- Distinctions
- Credit recognition
- Addition to registration due to recognition
- Master's degree thesis
- Placements

## **Article 7. General provision**

These economic regulations referring to registration shall be applicable unless otherwise specified in the decree on public prices of the Government of Catalonia or other legal regulations.

## **TITLE 4**

### **TRANSCRIPT**

## **Article 8. Credit transfer and recognition**

### **8.1 Credit transfer**

Credit transfer implies that the total number of credits obtained in official studies taken previously at this or any other university that have not led to an official qualification shall be included in official academic documents accrediting the studies taken by each student. These credit transfers must appear in the European diploma supplement.

In order to transfer credits, students must close the transcript of the abandoned degree and submit the transcript transfer receipt to the secretariat of the centre where they wish to register so that the destination centre can include the credits obtained from the original degree in their transcript.

These credits do not count for the purposes of obtaining the qualification.

If students have been allowed to take simultaneous studies, the credits from the original degree shall not be transferred because the reason for the simultaneous studies application is to be able to take the two courses of study in full. If students abandon one of the courses of study for which they are registered, they may request a credit transfer in respect of the abandoned studies so long as they make the transcript transfer.

## **8.2 Credit recognition**

In accordance with the provisions of Article 6 of Royal Decree 1393/2007, of 29 October (Spain's Official State Gazette of 30 October 2007), amended by Royal Decree 861/2010, of 2 July (Spain's Official State Gazette of 3 July 2010), ) and by Royal Decree 43/2015, 2 February (Spain's Official State Gazette of 3 February 2015) credit recognition is the acceptance by a university of credits that, having been obtained through official studies in the same or another university, are counted in other courses of study for the purposes of obtaining an official qualification.

These recognised credits must appear in students' transcripts and in the European diploma supplement with the original grades.

Credits obtained from other official higher education studies or university studies leading to the award of other qualifications (qualifications endorsed by the respective higher education institution) may also be recognised.

Accredited work and professional experience may also be recognised in the form of credits that count for the purposes of obtaining an official qualification so long as this experience is connected with the competencies inherent to the mentioned degree.

In order to accredit work and professional experience, students must submit a report from the firm where they work or worked. The master's degree Committee may request more documentation if it considers it necessary to do so before recognising the credits.

Under no circumstances may credits from bachelor's degree final projects or master's degree theses be recognised.

The number of credits recognised for work or professional experience and unofficial university studies may not exceed, as a whole, 15% of the total credits of the curriculum.

The recognition of these credits does not incorporate a grade. They do not count, therefore, for the purposes of transcript grading.

### **8.2.1 Application for credit recognition, deadlines and documents for submission**

Students wishing to apply for credit recognition in master's degree studies must indicate this on the pre-registration form and submit the documentation set out in Article 2.2.4 of these regulations, in the pre-registration period or in the period indicated by the centre, if it considers it expedient.

Applications for credit recognition in master's degree studies are resolved by the body responsible for the Official Postgraduate Programme, at the proposal of the master's degree Studies Committee.

Recognised credits must be registered in the registration period established for the master's degree, and the fee as set out in the decree on public prices must be paid.

### **8.2.2 Criteria for credit recognition in master's degree studies**

1- In accordance with the fourth additional provision of Royal Decree 1393/2007, people holding a long degree, architecture degree or engineering degree qualification may obtain credit recognition in master's degree studies considering the fit between competencies and knowledge acquired in the other studies taken and those foreseen in the curriculum of the master's degree studies applied for.

2- The percentage of credits that may be recognised in a master's degree for people being admitted to it with a long degree, architecture degree or engineering degree qualification or a doctoral programme qualification must be less than 50%. In master's

degrees with regulated professional credits having the same professional competencies as the respective phased-out second-cycle degrees, this limit is not applicable when the table of recognitions between the second-cycle degree and the master's degree yields a higher percentage of credits, whether the table was approved by the National Agency for Quality Assessment and Accreditation of Spain (ANECA) or the Catalan University Quality Assurance Agency (AQU) or by the Board of the centre.

Credits corresponding to the master's degree thesis must always be taken, and under no circumstances shall they be recognised.

In both cases, credit recognition must be done in accordance with the provisions of the previous section.

3- In master's degree studies, credits passed in other official university master's degrees may be recognised.

4- Credits for work and professional experience and for qualifications endorsed by the respective higher education institution may be recognised in accordance with the provisions of Article 8.2 of these regulations.

5- In master's degree studies, credits for short degrees, technical architecture and technical engineering qualifications and bachelor's degrees shall not be recognised.

6- The percentage of credits that may be recognised for students admitted to a master's degree holding short degrees, technical architecture and technical engineering qualifications and bachelor's degrees with credits passed in an incomplete second cycle must be less than 50% of the total number of credits of the master's degree, and there must be a fit between competencies and knowledge of the second-cycle studies/credits and those of the master's degree.

## **Article 9. Simultaneous studies**

Students wishing to start another master's degree and take it at the same time as the one they are doing must apply to do so to the dean or director of the centre where they wish to start the new studies. The dean or director of the centre, as delegated by the rector, shall resolve the application.

Students must have obtained a place on the master's degree via university pre-registration.

Once the simultaneous studies have been accepted and a place has been offered via pre-registration, students must pay the simultaneous studies fee to the centre of provenance and must submit the receipt at the time of registration.

As indicated in Article 8.1 of these regulations, credits taken in the degree that students have already started shall not be transferred because the reason for the simultaneous studies is to be able to take the two courses of study in full.

## **Article 10. Grading system**

Applicable to the grading system are the provisions of Article 5 of Royal Decree 1125/2003, of 5 September (Spain's Official State Gazette of 18 September 2003), Article 6.3 of Royal Decree 861/2010, of 2 July (Spain's Official State Gazette of 3 July 2010), Annex 1 to Royal Decree 22/2015, of 23 January (Spain's Official State Gazette of 7 February 2015) and the Regulations for the Assessment and Grading of Teaching in Bachelor's and Master's Degrees at the University of Lleida approved by the Board of Governors on 26 February 2014.

The results obtained by students in each subject of the curriculum shall be graded in accordance with a numeric scale from 0 to 10, expressed to one decimal place, to which the respective qualitative grade may be added:

- 0 – 4.9: fail
- 5.0 – 6.9: pass
- 7.0 – 8.9: good
- 9.0 – 10: excellent

A “with distinction” mention will be awarded to students who obtained a grade equal to or higher than 9.0. The number cannot be greater than 5% of the students registered on a subject in the respective academic year. An additional distinction may be awarded for the fraction resulting from applying 5% to the number of students registered. If this number is lower than 20, only one distinction may be awarded.

Credits obtained by the recognition of credits corresponding to educational activities not integrated in the curriculum (work or professional experience, cross-disciplinary subjects and unofficial university studies) shall not be numerically graded and shall not count for purposes of calculating the transcript average.

Bridging courses shall be graded in the same way as degree subjects, that is to say, from fail to excellent and distinction.

**Article 11. Transcript average**

The transcript average is determined in accordance with the provisions of Royal Decree 1125/2003, of 5 September (Spain’s Official State Gazette of 18 September 2003), Royal Decree 861/2010, of 2 July (Spain’s Official State Gazette of 3 July 2010), which amends Royal Decree 1393/2007, of 29 October, and Royal Decree 22/2015, of 23 January (Spain’s Official State Gazette of 7 February 2015).

It is the sum of the credits passed by the student, each one being multiplied by the respective grade value and divided by the number of credits passed by the student.

$$\text{Weighted average} = \frac{\sum NC_i \times G_i}{NC}$$

NC: Total number of credits passed by the student

NCi: Number of credits passed in each subject

Gi: Respective grade

Numeric scale of grades

Descriptor	Numeric scale
fail	0 – 4,9
pass	5 – 6,9
good	7 – 8,9
excellent	9 – 10
distinction	9 – 10 plus a “with distinction” mention

Exempt subjects due to accredited prior training (2006/07 academic year) and credits recognised for work or professional experience and for unofficial university studies do not have a grade and shall not be taken into account for weighting purposes.

Regarding applications for grants that the Ministry convenes annually, the transcript average shall be determined in accordance with the formula set out in the respective announcements published in Spain’s Official State Gazette.

In order to take part in the Erasmus and Mobility programmes of the University of Lleida, the transcript average shall be the sum of graded credits, each one being multiplied by the respective grade value, in accordance with previously mentioned the table of equivalences, and divided by the total number graded credits. The last grade obtained for each subject (fail, pass, good, excellent and distinction) shall be taken into account in this formula.

#### **FIRST ADDITIONAL PROVISION. Voluntary contributions**

The University of Lleida offers students the opportunity to participate in its solidarity efforts by making a voluntary contribution of €3.00 to the “Dóna el teu 0,7%” (Give

your 0.7%) campaign. This action of the university student community, together with what the administrative and service staff (PAS) and the teaching and research staff (PDI) are already doing, will contribute to the development and expansion of the development cooperation activities that, from the very outset, the Development and Cooperation Office has been undertaking. The amount of this contribution to the University of Lleida will not be refunded under any circumstances to those people who voluntarily select this option at the time of registration.

### **SECOND ADDITIONAL PROVISION. Curricular adaptations**

To guarantee equality of opportunity in access to the curriculum for students with disabilities, the University of Lleida shall make curricular adaptations for such students by taking into account their requirements in accordance with the established procedure.

### **THIRD ADDITIONAL PROVISION. Insurance**

All information about insurance can be found at <http://www.udl.cat/serveis/patrimoni/asseg.html>. Alternatively, students may call +34973702103.

### **FOURTH ADDITIONAL PROVISION. Phase-out or temporary suspension of a master's degree**

Once a master's degree has been phased out (due to removal from the programme, re-verification or temporary suspension), students who have not completed it shall be entitled to be assessed over the course of the following two academic years. If students were still awaiting registration of a subject, they would be entitled to teaching in that subject over the course of the academic year following the phase-out.

Students who have not passed or undergone the assessment yet wish to continue their studies must do the adaptation to the new curriculum in the case of a master's degree that has been phased out due to a substantial amendment (re-verification). If this is not the case, and the phase-out does not entail the creation of a new master's degree, students may pre-register on another master's degree and apply for recognition of the credits taken, provided there is fit between competencies and knowledge acquired.

**FINAL PROVISION. Situations not provided for in the regulations**

Any situation not provided for in these regulations shall be resolved by the Official Postgraduate Programme Studies Committee of the University of Lleida.
