Inici del congrés [International Academic Mobility in a \(Post\) COVID-19 World \[https://intmobility-conference.de/programme/ \]](https://intmobility-conference.de/programme/). Spanish and German Perspectives.

The conference “**International Academic Mobility in a (Post) COVID-19 World. Spanish and German Perspectives.**” picks up on this emerging field of practice and research. Integrating the views of (early career) researchers, practitioners and students who either are located within Spanish or German higher education or have these two countries as a focal area of their work, the two-day online event provides a space for discussion, scholarly and applied exchange of ideas and opportunities to network.
