About the web

The UdL's website uses the [OpenCms](http://www.opencms.org) [<http://www.opencms.org>] content management system. The templates created are accessible at AAA level. However, as the editor used by the system — [FCKEditor](http://www.fckeditor.net) [<http://www.fckeditor.net>] — does not generate a fully accessible code, we are unable to guarantee that the content of all the pages created by the University's editors will be accessible at this level.
